

— MAKSYM — KRYVOLAP

FRONTEND DEVELOPER

Certificate of completion

S U M M A R Y

As a **Frontend Developer**, I have **2 years** of hands-on experience in building responsive and functional **web applications**, including **dashboards**, **authentication flows**, **purchasing journeys**, and **order management**. I am proficient in **React**, **TypeScript**, **Redux**, **Next.js**, **HTML**, **CSS/SCSS**, **Bootstrap**, **Fetch API**, **REST API**, and **Figma**. I consistently deliver **clean, maintainable code** and thrive in collaborative **team environments**.

My participation in the **Work and Travel USA program** improved my **English** proficiency to a **B2 level** and enhanced my **attention to detail**, **collaborative skills**, and **resilience under pressure**. Additionally, I achieved **C1** proficiency in **Polish** and gained **strong communication** and **customer service** skills through direct interaction with Polish-speaking clients.

E X P E R I E N C E

2D Marketing 26 S.R.L., Frontend Developer

March 2024 – April 2025

Responsibilities:

- Developed scalable multi-page applications and marketplaces from Figma prototypes using modern frontend technologies.
- Created features such as user authentication, dashboards, and real-time crypto trading tools.
- Collaborated with international teams including designers, PMs, and backend developers.
- Ensured high-quality UI/UX standards across browsers and devices.
- Participated in sprint planning and contributed to the continuous improvement of the development process.

Flashlly sp. z o.o., Frontend Developer

November 2023 – February 2024

Responsibilities:

- Refactored, optimized, and extended existing applications, including a blog platform, admin dashboard, and a crypto trading app.
- Implemented user authentication, registration, and trading features.
- Integrated dynamic widgets for tracking cryptocurrency values.
- Worked in a cross-functional team with designers and backend developers using Agile methodologies.
- Participated in regular code reviews and feature planning.

Freelance, Frontend Developer

August – October, 2023

Responsibilities:

- Developed custom landing pages and lightweight web applications based on client-provided Figma designs.
- Communicated directly with clients to refine requirements and deliver tailored solutions.
- Maintained clean, reusable, and scalable code with HTML, CSS/SCSS, and JavaScript.
- Managed the full development cycle independently, from layout to deployment.

BSP Company, Frontend Developer

April – July, 2023

Responsibilities:

- Developed responsive landing pages and small multi-page web apps using HTML, CSS/SCSS, JavaScript, and Fetch API.
- Translated Figma designs into pixel-perfect, production-ready code.
- Ensured cross-browser compatibility and optimized performance.
- Collaborated closely with a small team to meet tight deadlines.

PROJECTS

My CV (This is my personal CV website.)

Technologies: React, TypeScript, i18next, HTML, CSS, SASS, Bootstrap, GSAP.

[Live](#)

[GitHub Code](#)

CornerSwap (Is a multi-page web application designed for seamless cryptocurrency trading and monitoring.)

Technologies: React, TypeScript, Redux Toolkit, SumSub, Axios, Formik, i18next, Sitemap, HTML, CSS, SASS, Bootstrap.

Note: The project is accessible online. However, the source code is proprietary and not publicly available.

[Live](#)

FYM (Is a dynamic web application that allows users to search for movies)

Technologies: Next.js, TypeScript, Redux, Axios, Sitemap, GSAP, HTML, CSS, SASS, Bootstrap, Figma.

[Demo](#)

[GitHub Code](#)

Bose (The Bose brand website typically features an extensive catalog of high-quality audio products. This includes various categories like headphones, speakers, soundbars, and other audio equipment.)

Technologies: HTML, SCSS, BEM, JavaScript

[Demo](#)

[GitHub Code](#)

Air (This project focuses on enhancing brand value through strategic branding, effective communication, and growth-oriented strategies.)

Technologies: HTML, SCSS, BEM, JavaScript

[Demo](#)

[GitHub Code](#)

Museum (The National Museum website showcases a unique collection of artworks, exhibitions, and events.)

Technologies: HTML, SCSS, BEM, JavaScript

[Demo](#)

[GitHub Code](#)

Fusion of digits (An exciting game in which you need to get the number 2048 by adding two identical adjacent numbers)

Technologies: JavaScript, HTML, SCSS, BEM

[Demo](#)

[GitHub Code](#)

Task list app (An indispensable assistant in organizing your affairs)

Technologies: JavaScript, React, TypeScript, HTML, SCSS, BEM

[Demo](#)
